TRẦN TRUNG HIẾU

I am a Quantity Surveyor (QS) born in 1998, specializing in structural engineering. Driven by my passion, I have engaged in various facets of the construction industry. My strengths include a commitment to continuous professional development, a strong sense of accountability, and innovative problem-solving skills. I am personable and adept at collaborating within teams, and I look forward to contributing to your organization.

MY PRODUCT. IV

QUANTITY SURVEYOR

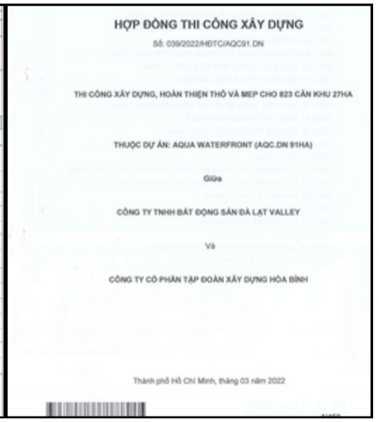

- Review the contract and calculate quantities based on its terms. Check and coordinate to verify any additional quantities.
- Calculate project progress based on the theoretical schedule and the actual construction schedule.
- Control material losses and process payments to the investor (IPC), subcontractors, and suppliers.
- Prepare a report and presentation on the project's cash flow.
- Additionally, I am proficient in using VBA code and various workflow optimization software. I have complete control over the overall workload.

SOFTWARE

Revit Autocad Excel Project

Microsoft Visual Basic for Applications

cubiCost

Thank you.
